TEAM CHARTER Cyber Guardians Group

Software Development | Cloud Computing | Cybersecurity

1. Team Purpose

Mission: Building a secure cloud-based solution.

Objectives:

Collaborate together effectively
Develop, deploy and secure a solution
Deliver project milestones

2. Team Members

Software Dev Learners:

Puleng Machete

Moribishane Ramonyai

Katlego Mojapelo

Kgomoeswana Lethabo

Cloud Computing Learners:

Kgotso Marapyana

Cybersecurity Learners:

Tshepang Chuene

Tshepo Letsoalo

3. Team Roles

Software Development Lead Developer:

Responsible for designing the UI, developing frontend and backend functionality, creating and managing the database structure, integrating application features and maintaining the project source code repository.

Cloud Engineer:

Responsible for designing cloud architecture, deploying the application to Microsoft Azure, configuring Azure App Services, managing Azure SQL Database, configuring Azure Blob Storage and implementing backup and recovery solutions.

CyberSecurity Lead:

Responsible for conducting risk assessments, performing threat modelling using STRIDE, maintaining a risk register, developing security policies and standards, implementing RBAC, conducting vulnerability assessments, reviewing security controls, ensuring POPIA compliance, delivering security awareness training and performing security audits.

4. Communication Plan

WhatsApp Group
Microsoft Teams
Weekly Monday and Friday Meetings

5. Team Rules

Respect deadlines
Attend meetings
Communicate early
Contribute equally
Follow security best practices

6. Success Criteria

Complete milestones
Working cloud solution
Security controls implemented
Successful final demonstration

7. Team Commitment

We commit to professionalism, collaboration, quality work and project success.

8. Team Charter Approval

Members	Role	Signature
Puleng Machete	Developer	PR machete
Moribishane Ramonyai	Developer	
Katlego Mojapelo	Developer	K.A.M Mojapelo
